Smart Protect

Smart Protect

Tool-free arrest and release of the swinging arm!

The swinging arm can simply be fixed in different positions without tool. Ready to go in seconds!

The brush strip provides all-round protection for safe and constant work, also on uneven ground.

The robust plastic cover provides protection for surrounding people and objects.

Swinging movement without removal

small,
light,
robust

Safety First!

Up to now there was no suitable protective cover for conical wire brushes. The Smart Protect cover is ideal for this type of use thanks to its lightweight construction and its conical shape.

For trimmers from 1 hp.

The supplied adapter rings allow mounting on shaft diameters of 24, 26 and 28 mm.

Patent: EP 2 241 173 B1

Protective cover „SmartProtect“

use only in conjunction with Conical brushes of max. Ø 165 mm
